KEGG Pathway

Plant hormone signal transduction
Plant−pathogen interaction
Carbon metabolism
Biosynthesis of amino acids
Starch and sucrose metabolism
Phenylpropanoid biosynthesis
MAPK signaling pathway − plant
Glutathione metabolism
Cysteine and methionine metabolism
Glycine, serine and threonine metabolism
ABC transporters
Glycerolipid metabolism
Carbon fixation by Calvin cycle
Fatty acid elongation
Alanine, aspartate and glutamate metabolism
Tropane, piperidine and pyridine alkaloid biosynthesis
Carotenoid biosynthesis
Glucosinolate biosynthesis
Isoquinoline alkaloid biosynthesis
Diterpenoid biosynthesis
